How to Configure NIC/GOV email in Mozilla Thunderbird mail client?

In this guide we will see how to link government NIC / GOV email accounts to Mozilla Thunderbird mail client via IMAP protocol.

What is Thunderbird?

Thunderbird is a free, open-source, cross-platform application for managing email. It runs on all operating systems such as Windows, MAC, Linux. This is an email application that works just like using emails in a web browser. It includes more features and is easier to use. We can manage more than one email in this mail client.

What is IMAP?

IMAP (Internet Message Access Protocol) is a standard email protocol for storing email messages on an email server. It allows the user to view and manipulate the user's email messages as if they were stored on the user's computer. IMAP allows you to access your email from anywhere, from any device. IMAP allows you to access your email wherever you are, from any device. When you read an email message using IMAP, you aren't actually downloading or storing it on your computer; instead, you're reading it from the email service. As a result, you can check your email from different devices, anywhere in the world: your phone, a computer, a friend's computer.

But POP3 (Post Office Protocol) protocol downloads email from the server to your computer when you access your email from a computer and erases that email on the server (you can use the Leave a copy of messages on the server feature). Then you will not be able to access that email from the other device. So it is best to link email to mail clients, often via IMAP protocol.

Now let us see the guidelines for that.

1) Please download the Thunderbird using the following link <u>https://www.thunderbird.net/en-US/</u>

2) Double click on the installation file and follow the instructions as below.

👸 Mozilla Thunderbird Setup		👸 Mozilla Thunderbird Setup				
	Welcome to the Mozilla Thunderbird Setup Wizard This wizard will guide you through the installation of Mozilla Thunderbird. It is recommended that you close all other applications before starting Setup. This will make it possible to update relevant system files without having to reboot your computer. Click Next to continue.	Setup Type Choose setup options Choose the type of setup you prefer, then click Next. Standard Thunderbird will be installed with the most common options. Custom You may choose individual options to be installed. Recommended for experienced users.				
	Next > Cancel		< Back Next > Cancel			
Mozilla Thunderbird Setup Summary Ready to start installing Thun	derbird	Mozilla Thunderbird Setup	Completing the Mozilla Thunderbird Setup Wizard			
Thunderbird will be installed to C: \Program Files\Mozilla Thu I Use Thunderbird as my de	o the following location: nderbird fault mail application		Mozilla Thunderbird has been installed on your computer. Click Finish to close this wizard. V Launch Mozilla Thunderbird now			
Click Install to continue.	< Back Install Cancel		< Back Finish Cancel			

Now we have installed Thunderbird in our system.

3) The following will appear on the computer screen. Or double click on the Mozilla Thunderbird Shortcut Icon to open it.

	Use your current email address	
Your pame:		0
Email address:	edie ko @nicin	0
Password:	••••••	ø
After enterin as above, ple	g the Name, email id and ase dick "Configure mar	Password wally"

If you select **Remember password** here, you do not have to enter your password every time you open Thunderbird. However, it is advisable not to opt for this.

	INCOMING		OUTGOING			
Protocol:	IMAP	~	SMTP			
Server:	imap.mail.gov.in		smtp.mail.gov.in	~		
Port:	993	~	465	~		
SSL:	SSL/TLS	~	SSL/TLS	•		
Authentication:	Normal password	~	Normal password	~		
Username:	adio-krr@nic.in		adio-krr@nic.in			
			<u>A</u> dvanced con	fig		
C <u>a</u> ncel			Re- <u>t</u> est <u>D</u> one			

4) Enter the required details as following

	Incoming	Outgoing		
Protocol	IMAP	SMTP		
Server	imap.mail.gov.in	smtp.mail.gov.in		
Port	993	465		
SSL	SSL/TLS	SSL/TLS		
Authentication	Normal Password	Normal Password		

Click **Re-test** after entering. If all the entries are correct then the screen will appear as follows.

The following settings were found by probing the given server							
	INCOMING		OUTGOING				
Protocol:	IMAP	•	SMTP				
Server:	imap.mail.gov.in		smtp.mail.gov.in				
Port:	993	•	465 🗸				
SSL:	SSL/TLS	•	SSL/TLS 🗸				
Authentication:	Normal password	•	Normal password 🗸 🗸				
Username:	adio-krr@nic.in		adio-krr@nic.in				
			<u>A</u> dvanced config				
C <u>a</u> ncel			Re- <u>t</u> est <u>D</u> one				

Please Click **Done**. Your email is now successfully linked to the Thunderbird mail client. You can use your email here just like you use email in any web browser.

If you want to link more than one NIC / GOV email to Thunderbird, follow the steps below.

1) Click on **Email** which is shown under **Set Up Another Account** as shown below.

Or Go to Tools- \rightarrow Account Settings - \rightarrow Account Actions - \rightarrow Add Mail Account as below.

2) Then you can link more than one email to the Thunderbird by following the steps in the **steps 3 and 4 which is shown in the above**.
